

Elton Consulting has been providing trusted advice and practical solutions to all levels of government, the private sector and community organisations for over 30 years.

Our services include:

- » communications and engagement
- » urban and regional planning
- » social sustainability
- » strategy and policy
- » bid strategy and preparation
- » design studio

We work collaboratively with clients including property, built environment, transport, infrastructure, housing and public policy to make a difference to cities and regions, communities and organisations.

COMMUNICATIONS AND ENGAGEMENT

Elton Consulting is recognised as one of Australia's leading community and stakeholder engagement and strategic communications firms. Our team collaborates with you to develop a tailored approach to address your project needs – ensuring workable and meaningful solutions every time. We work proactively to recognise the complexities of different stakeholder groups and deliver communications and engagement strategies that are inclusive and accessible, across all levels of government and industry; and local communities.

Our services include strategic communications advice, stakeholder engagement, media and issues management, facilitation and community relations.

STRATEGY AND POLICY

We collaborate with organisations and sectors to understand their business and policy context and distil their challenges and opportunities. Our strong analytical and project management skills deliver solutions that are contemporary, strategic and practical. Drawing on our expertise in strategy and delivery and our knowledge of community expectations, government directions and organisational and service trends, we assist our clients to develop strategies, directions, structures and delivery models that work well in practice.

Our services include policy analysis and development, strategic and business planning, organisational strategy and change, service planning and program review, governance support and advice and sector reform.

SOCIAL SUSTAINABILITY

Elton Consulting has extensive experience in planning for growing and changing communities. We focus on providing long-term positive outcomes and understand the diverse range of social elements that contribute to the creation of strong, vibrant and socially sustainable communities. Our respected team has worked with all levels of government, not-for-profit organisations and the private sector to deliver desirable places across Australia.

Our services include planning healthy built environments, social infrastructure and community facilities planning, demographic analysis and social research, social and health impact assessment, community development and placemaking.

URBAN AND REGIONAL PLANNING

Elton Consulting's specialist planners have extensive experience in both the private and public sector and highly developed skills navigating the complexities surrounding the planning framework according to the specific needs of the project in your State or Territory.

We deliver technical and statutory planning services, environmental assessments, planning scheme amendments including rezoning, planning permit applications for subdivisions and built form, design guidelines and due diligence reports. We also bring expertise in strategic planning across greenfield developments and land release and policy development.

Our services include obtaining planning approvals, strategic land use rezoning, development contributions and property advice, planning policy, master planning and research, project facilitation, sustainability and GIS mapping.

BID STRATEGY AND PREPARATION

We specialise in creating winning tender responses that are compliant with government procurement processes, position your business and your offer, reduce your staff's required time commitment, and are robust and engaging – even with short turnaround delivery times. Our team are also skilled in developing unsolicited proposals to make sure they are persuasive and appealing.

We work on large, complex projects in highly competitive environments. These include 'hard' and 'soft' infrastructure and major land releases around Australia. These confidential services include tender analysis and project scoping, bid strategy, facilitation and partnerships, and document drafting and management.

DESIGN STUDIO

Our award winning designers create the ultimate visual identity for your project and collateral to give the right first impression and maximise the message you want to send your audience. We are adept at producing a full suite of materials from websites, brochures and fact sheets to annual reports, tender documents and financial reports.

Our services include print and publishing design, digital design and development, visual identity and project branding, data visualisation and infographics and bid design and production.

Elton Consulting provides trusted advice and practical solutions to all levels of government, the private sector and community organisations.

We work collaboratively with clients in infrastructure, property, transport, community services, housing and other sectors to deliver the best results.

Our team of over 100 staff understand it is important to tailor solutions to client needs.

We collaborate and think strategically to:

- » create great places and facilities for people
- » develop policies and strategies that work
- » communicate and engage meaningfully with clients, communities and stakeholders
- » improve communities, services, systems and organisations
- » design materials that bring projects to life.
